

DAVID ZHAO HAN

Sembawang, Singapore

davidzhaohan@gmail.com · Mobile phone: 89298939

Singaporean software developer with experience in full-stack web application development, CI/CD automation, and software maintenance across financial, enterprise, and consumer-facing products. Skilled in Java/Spring-based backends, JavaScript frontends, and working with large-scale infrastructure in both on-premise and cloud-like environments.

WORK EXPERIENCE

MAY 2022 – MAY 2025

SOFTWARE ENGINEER, MONEYPHOR

- Developed full-stack features for Moneyphor's core personal finance platform web application deployed on-premise in banks.
- Enhanced backend APIs to support additional data fields and improved frontend APIs to enable more flexible querying of user transactions.
- Updated and debugged build scripts to improve compilation speed and reliability of the web application.
- Technologies used: Java, Spring boot, Javascript, HTML, CSS KnockoutJS, Thymeleaf, JPA, PostgreSQL

MAY 2020 – MAY 2022

SENIOR ENGINEER, ST ENGINEERING

- Implemented CI/CD pipelines by creating Jenkins builds to automate application testing, improving QA team efficiency by at least 50%.
- Developed helper applications, including an API platform for a management portal and a downloader to automatically fetch update packages for dependent software.
- Performed software maintenance, including troubleshooting and investigation of software issues.
- Conducted research on using a branded GPU for transcoding video streams and files, and created proof-of-concept test cases.

MAY 2018 – FEB 2020

APPLICATION ENGINEER, RAKUTEN INC. JAPAN

- Worked with large-scale enterprise infrastructure and software, contributing to software migration from legacy technologies with limited documentation to modern, well-documented stacks.
- Participated in migrating an internal admin application from Ceasar framework + Struts to Spring Boot + JSP, and batch programs from Perl to Python.
- Handled software maintenance, troubleshooting, and regular updates/patches for two public-facing applications (one built with Spring Boot and one with Laravel).
- Extensively used bash commands and scripts to operate on CentOS servers.
- Used JIRA for issue tracking and reporting and Confluence for documentation and knowledge sharing.
- Performed manual database operations in MySQL for maintenance purposes.
- Developed software using event-driven, asynchronous Node.js as backend and HTML, CSS, and JavaScript as frontend.

- Implemented CI/CD using Jenkins and CircleCI.

MAY 2017 – APR 2018

APPLICATION SPECIALIST, ACTIVATE INTERACTIVE PTE LTD

- Developed and maintained mobile applications using Titanium and React Native frameworks.
- Implemented the heart rate measurement feature on the Healthy 365 mobile app and developed an admin application for user registration.
- Maintained an additional admin application developed for event organizers.

MAY 2016 – AUG 2016

TECH INTERN, V-KEY PTE LTD

- Collaborated with another intern to build a product demo application showcasing how the company's SDK secures sensitive data transactions.
- Contributed to backend components, including a web application developed using the Spring framework.
- Handled database management tasks using MySQL.
- Worked on the admin console UI using JSP.

TECHNICAL SKILLS

FRAMEWORKS

- Spring Framework
- JUnit

BACKEND

- Java
- Python
- MySQL
- Node.js
- Bash

CI/CD

- Jenkins
- CircleCI
- Sonarqube

FRONTEND

- Javascript
- HTML5
- CSS and Bootstrap

CERTIFICATIONS AND COURSES

- Containers for Deploying and Scaling Apps course by NUS ISS
- Japanese Language Proficiency Test level N1 (Japanese language certification for foreigners)
- Fundamental Information Technology Engineer Examination (national certification in Japan conducted in Japanese)

EDUCATION

AUG 2013 - MAY 2017

Bachelor's degree in computer science with honours

National University of Singapore

Took classes in diverse areas of computer science

- Software engineering

- Algorithms
- Computer graphics
- Computer networks
- Computer security

JUL 2015 – JAN 2016

Student exchange programme

University of Queensland, Australia

Expended my academic perspective by taking classes outside computer science

HUMAN LANGUAGE SKILLS

- English native level
- Mandarin native level
- Japanese native level
